

Flavors Of CARAGA

Celebrating and Discovering Caraga's Foods!

The Reason Why We Chose This Topic:

Finding a topic to choose for our project wasn't easy. We spent multiple classes in the ComLab trying to brainstorm on what kind of website we wanted. But then, we realized that the perfect topic was in the instruction after all – a guide to local food delicacies!

In this site we aim to give people an idea of the local foods that can be found in Caraga! By sharing links of Google Maps locations and highlighting the foods found in different provinces of the region!

Although at this current point in time, the website may be simple. We hope that in the future that this website could become something way more. Not just a hastily made Computer Science project but something that could actually guide not just locals but also tourists from different parts of the world.
